What To Expect:

Morning’s will consist of a variety of teachings. While on this trip you will be trained in:

- Prayer walking
- Cultural Observations
- Evangelism
- Intro to Islam
- Church Planting Movements
- Turkish Language

We highly value practicing what we learn. In the afternoon after you have received training you will be sent out with our team and other local believers to apply what you have learned in our city. This means you will prayer walk unreached neighborhoods, share your faith with Turks who most likely have never heard the Gospel before, and drink more Turkish tea and coffee than you can imagine. In addition to planting the church, our team runs an English language school. In the evening’s, you will join us in the classroom. This will look like sharing life stories and testimonies, 1-on-1 time with locals just learning English, and lots of hands-on experience.
