

Going on Mission through XA

Every Student Goes. Every Student Gives. Every Student Prays. Every Student Welcomes.

We want to see every student go on at least one cross-cultural trip during their four-year collegiate career.

▶ Expeditions - Every Student Goes

Jesus said GO into all the world. Every believer has a role to play in God's global mission. God is looking for a generation that will raise up their hands toward heaven and say "pick us!" Will we be that generation? Will we be the generation who will take the gospel to the ends of the earth? Will we be the generation that rises up with passion for the least reached? Will we be the generation to step out of our comfort zone and go? Isaiah said, "*Here am I Lord, send me!*" Let's not be the "I" generation who is all about me. Let's be the Isaiah generation that says send me! I will go!

We want to see every Chi Alpha group make a five-year commitment to going to the same place/area/project. Meaning, don't go to South America this year, Japan next year, and the Middle East the third year, pick one place/area/project and commit there for five years (i.e., returning every summer)—this kind of longevity has proven most effective, strategic, and fruitful!

We want to see students give a year and pray about a lifetime! Between college and entering into your career, give one year of your life to serve alongside missionaries. And pray about serving for a lifetime! There are opportunities all over the world and in the United States. The opportunities range from traditional ministry to business, education, engineering, and everything in between.

XA CMIT (Campus Missionary-In-Training)

Want to reconcile college students to Christ full-time? The CMIT is an opportunity to learn and develop the character and competencies necessary for a calling and mission among college students. It will include a biblical and practical ministry education, character development, and a wide variety of skill acquisition required for campus ministry service. It will involve learning and growing under the care and mentoring of veteran men and women who have modeled fruitfulness and godliness and been nationally approved to offer a CMIT internship.

For more information on the CMIT program, check out this website:
